# INNOVATION...FOR TODAY & TOMORROW

# STRATEGIC PARTNERSHIPS

**ARNO:** Exceptional global POS Display provider headquartered in Germany.

**VAULTe:** Inventor and provider of DC technology that delivers lighting in stores more efficiently and effectively. (Target is using DC power to power the Department Signs referenced earlier).

**Scorpion:** Premier provider of anti-theft merchandising systems for electronics at retail and now with TRINITY doing the industrial design, launching new anti-theft products non-electronic areas of the store.

**Grenite:** TRINITY is an owner in and marketer of this beautiful, sustainable/recycled building material.

# GLOBAL LEARNING & SHARING

This L'Oréal shop in shop system has been implemented by ARNO Russia in the L'Etoile store in Moscow. During an overnight installation the entire shop in shop system was installed to not interrupt daily business. Special golden materials were produced to meet the standards of L'Oréal.

# LIT AISLE SIGNS DRIVEN BY DC POWER

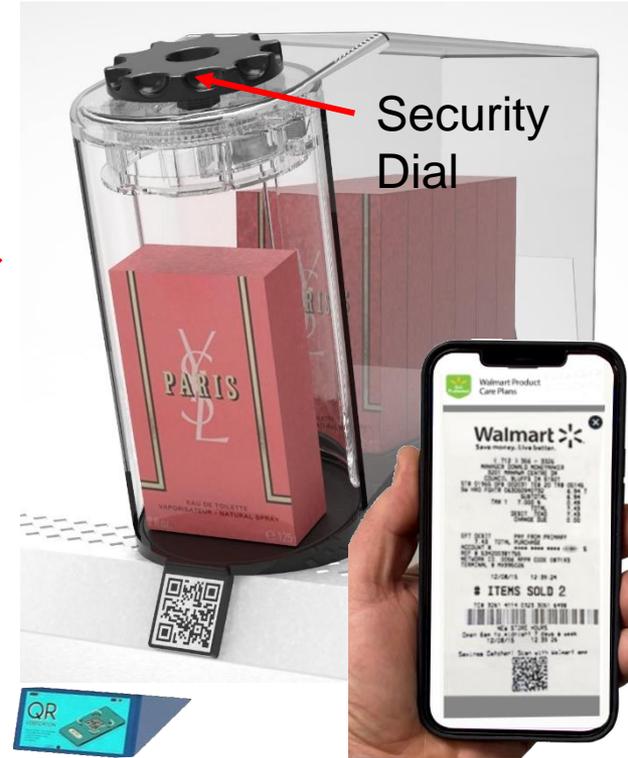

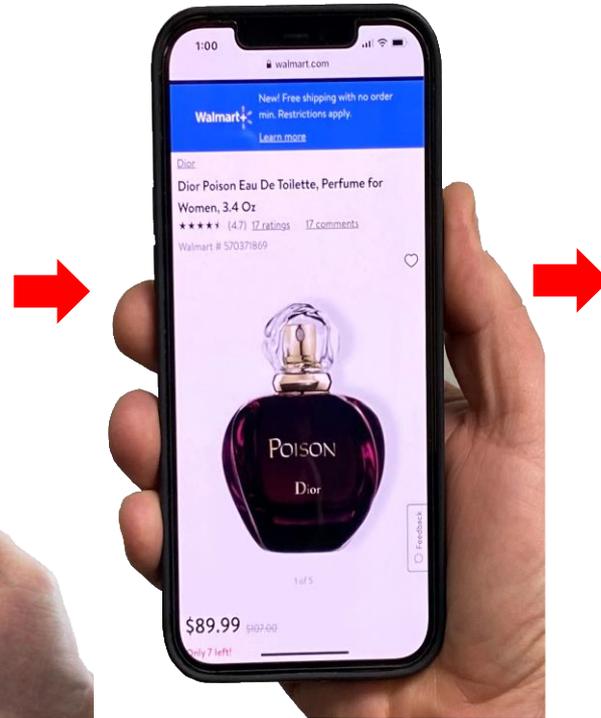

At Target, Department Aisle Signs Powered by DC Power Delivering Lower Cost, and Greater Flexibility, Resiliency, and Safety. The future of the power grid in stores.

# SECURE PRODUCT—SCAN & TAKE

Scan QR Code At Store

Buy Product At Retailerxyz.com

Digital Code/Receipt  
Generated On Phone

Secure product is in durable clear plastic enclosure. Clear front doors secure the product. Scan the QR Code at the shelf that takes you to XYZ Retailer website; buy the product on the website; get a Digital Code/Receipt. Scan the Digital Receipt to allow the Top Security Dial to open the front doors allowing purchase of 1 (or more if paid for) product. As doors open and pivot, they block the product behind. Take your product showing receipt at check-out. You could also buy the product at home and use receipt to get product in the store!

# WHY TRINITY:

- ✓ **Experience:** Market research, design, engineering, prototyping, production, lighting, tech, & logistics leading to...
- ✓ **Fixtures/Displays, many with Lighting & Tech**
